PROFILE

As a student majoring in Interaction Design at the University of Sydney with an interdisciplinary background in art and technology, I possess an international perspective and interdisciplinary background. I excel in combining art and technology to transform complex interactions into intuitive, aesthetic, and highly usable user experiences. I enjoy learning new things and actively seek out new concepts. I am currently seeking a design internship, hoping to create more humane and innovative product experiences in the fields of intelligent interaction and digital experience by integrating international design thinking with local user insights.

SKILLS

- Core: Leadership, Teamwork, Effective Communication
- Languages: Chinese (Native), English (PTE 68), Japanese (Basic)
- Technic: Figma, HTML, CSS, JavaScript, p5.js, Python (Basic)

EDUCATION EXPERIENCE

The University of Sydney

Interaction Design

Feb 2025 - Present

- GPA: 3.6 (Top 10% in major)
- Relevant Coursework: Interaction Design, User Experience Design, Information Visualisation, Web Development (HTML/CSS/JS), Creative Coding (p5.js), Foundations of Python

PROJECT

MedEasy: Medication Management App

UX/UI Design

- Optimised a medication scanning and reminder system for older adults with chronic conditions.
- Completed a high-fidelity prototype and user testing, improving task completion rate by 30%.
- Applied Norman's Design Principles and Nielsen's usability heuristics.

Waverley Cemetery by the Sea

Front-End Development & Visual Design

- Led front-end implementation (HTML/CSS/JS) and UI visual guidelines for a responsive website
- Used CSS Grid and Flexbox to support both desktop and mobile layouts.
- Improved accessibility using ARIA labels, and the code quality received a High Distinction evaluation.

AirPal: wearable airport companion

Product & Interface Design

- Design a product with interface for first-time solo travellers to reduce stress through airport.
- After iteration and user testing, gain 72.5 as the score from SUS.
- Work in group and demonstrated excellent teamwork ability.
